

Crescent Select™

Alpha-cellulose conservation matboard

S P E C I F I E R

THE GREATEST ARRAY OF COLORS IN THE MATBOARD INDUSTRY

Offering the industry's largest choice in color range for conservation matboard, with specially selected colors, suitable for today's current trends.

Crescent®

Crescent Select

Alpha-cellulose conservation matboard

CONSERVATION

Today more than ever, colour helps you express your style. Combining beautifully coloured matting allows you to create a look that is truly custom. All Crescent Select® matboards are deeply pigmented for rich colour that is fade and bleed resistant, so your customer's framed artwork will look just as good today as it will in years to come.

Available in an extensive range of sizes, textures and color options, our alpha-cellulose matboard provides a high level of conservation framing and are recommended for fine art prints, limited edition prints, valuable documents and original photography.

Quality materials:

These conservation quality matboards are made of alpha-cellulose (wood pulp) that has been chemically treated to permanently eliminate the acids and lignins that can degrade the matboard and the artwork. Acid-free and lignin free for a lifetime of protection.

Purity:

No recycled material is used to ensure the safety of your customer's artwork, acid-free and lignin-free for a lifetime of protection.

Fade & bleed resistance:

Superior fade and bleed resistant surface papers, exceeds industry standards.

Protection:

These products are suitable for levels of conservation framing and as an alternative to non-conservation materials.

pH Value:

Buffered with calcium carbonate to an alkaline reserve of 3-5% pH 8.5-9.5.

TEAM & SCHOOL COLORS

COLOR MATCHES FOR:

- College Colors
- Professional Teams
- US Military Colors

CRESCENT SELECT EARTHCORES

- Nature-Inspired Palette: Colors derived from natural elements such as earth, stone, and greenery.
- Simplicity and Elegance: The tone-on-tone approach brings a subtle sophistication that blends seamlessly into your artwork.
- Universal Appeal: These tones complement different design styles, from rustic and bohemian to modern and minimalist.
- Warm and Inviting: Earth tones can transform any space into a warm and inviting sanctuary.
- Timeless Appeal: Earthy tones' longevity and classic nature ensure they stay relevant across seasons and trends.

MUSEUM

S P E C I F I E R

**THE ORIGINAL
ALL COTTON
MATBOARD**

100% cotton, acid-free and lignin-free, solid color throughout, preferred by conservators and museums worldwide. Trusted by artists, historians and framing professionals alike

Crescent[®]

RagMat® MUSEUM

THE ULTIMATE IN CONSERVATION MATTING

Cotton RagMat® Museum matboard is the natural choice when the highest levels of protection are required. For over 1500 years cotton has been both the courier and curator of history. Priceless documents such as the Gutenberg Bible, Shakespeare's first folio, and the U.S. Constitution and Bill of Rights exist today because they were printed or penned on cotton paper.

The quality of cotton RagMat® is simply unsurpassed, it is preferred by preservationists and museums worldwide and has been trusted by artists and historians for centuries and now it is available to the art and framing professional. Trust cotton when preserving valuable art originals, limited edition prints or any artwork that demands the best matting available.

Crescent's RagMat® Museum matboards are 100% cotton, acid-free and lignin-free. Solid color throughout. Special surface sizing for French Matting and art media.

RagMat® Museum products meet all of the stringent standards of the Library of Congress, Fine Art Trade Guild, PPFA and other respected governing authorities. Each RagMat® Museum board features 100% cotton construction ensuring that only the safest materials come in contact with the artwork.

Crescent COMMITMENT TO QUALITY

Crescent RagMat® Museum Matboard Technical Specifications

Furnish:

RagMat Museum is made of 100% virgin cotton-cellulose fiber, which meets the most stringent standards for stability and permanence. Tests conducted in accordance with TAPPI Method T-236 om-85 indicate the board to be completely free of groundwood and lignin.

Purity:

Board will be free of metal particles, waxes, residual bleach, peroxide, or other impurities that could lead to the degradation of the board or adjunct artwork. Reducible Sulphur less than 0.0008 % (TAPPI T 406). Iron and Copper content less than 150 ppm and 6 ppm respectively (TAPPI T 266).

pH Value:

All buffered RagMat Museum boards will have an alkaline pH between 7.5 – 9.0.
All unbuffered RagMat Museum boards will have a neutral pH between 7.0 – 7.5

(TAPPI Method T-509 om-88 cold extraction on slurried pulp.)

Fade & bleed resistance:

Fade resistance established using a Xenon Fadometer in accordance with ASTM D3424. RagMat Museum colors will exhibit less than 1.0 DE color shift when measured with a spectrophotometer. No visible bleed after 48 hr. submersion using method Tappi T475

Photography compatibility:

All RagMat Museum Boards must pass the Photographic Activity Test (PAT ISO 14523-1999 / ANSO/APM IT9.16-1994). Certifications available upon request.

Sizing and adhesives:

Inert, water-based alkaline adhesives are only used to adhere Ragmat Museum components. Only alkaline sizing – never alum – is used on the surface

Key:

RagMat® Cotton Mounting Boards:

When mounting and matting valuable artwork, it is important to complete the conservation package by protecting the artwork on both sides. That is why Crescent offers the most complete collection of 100% cotton mounting boards in the industry. Available in a variety of sizes and thicknesses, and in the most useable colors, Crescent RagMat® cotton mounting boards are versatile enough to satisfy any conservation mounting need.
